

Round Bottle Labeling Machine SPATL-806

Traducción español

Features:

- Suitable for labeling on round bottle and cylindrical parts.
- Easy to operate, user-friendly digital controller.
- Large colour touch screen for easy reading and operation.
- Memory storage of up to 10 sets of labeling parameters for fast recall when production change.
- Machine is constructed using stainless steel and aluminum alloy for rust free performance and meeting FDA standards.

Label Specifications:

- Inner diameter of label roll: 76mm.
- Maximum outer dia. of label roll: 350mm
- Standard label height, maximum: 130mm. (Others height available upon request)
- Labeling speed is adjustable: 0-26m/min.
- Labeling accuracy: ± 1 mm
- Diameter of round bottle, maximum: 100mm.
- Electrical Supply: AC110/220V, 50/60Hz, 800W.
- Overall machine dimension: 2100mm(L) \times 1100mm(W) \times 1420mm(H)
- Rotating feeder table diameter: 550mm.

Option:

- Hot foil coding machine.
- Rotating feeder table.
